DETHATCHER 38CM

The WB384RB is a 38cm Lawn Scarifier/Dethatcher featuring 22 double tipped carbon steel blades and a fully adjustable raking depth to remove thatch and aerate roots gently but effectively. Powered by a quality Briggs & Stratton 750 Series, and with a pressed steel body with a hard wearing powder coated finish, this Scarifier is built to last. A variable height adjustment is fitted so the dethatcher is suitable for all lawn types.

DETHATCHER 46CM

The WB486CRH is a robust 48cm Lawn Scarifier/Dethatcher featuring 28 double tipped carbon steel blades and a fully adjustable raking depth to remove thatch and aerate roots gently but effectively. Powered by a quality Honda GX160 engine, and with a pressed steel body with a hard wearing powder coated finish, this Scarifier is built to last. A variable height adjustment is fitted so the dethatcher is suitable for all lawn types. Commercial quality.

AERATOR 45CM

Our WB456AH is a durable 45cm professional lawn aerator that will help maintain your lawn's health by improving drainage, relieving soil compaction and breaking up old grassroots, allowing water, nutrients and sunlight to penetrate the ground. Our lawn aerator is perfect for commercial projects and household lawn maintenance. The Weibang Lawn Aerator is powered by a Honda GX160 engine and fitted with a strong hollow tined working head which rotates and removes plugs of soil from your lawn down to 70mm deep.

TRENCHER

The WBTR126H is a robust, heavy duty walk behind trencher. Powerful yet compact and easy to manoeuvre, this Honda powered trencher will dig into soil easily and is suitable for homeowners and small businesses.

TURF CUTTER

The Weibang WBSC409H Turf Cutter is commercial grade, self propelled and powered by a Honda GX390 engine. It removes strips of grass 35cm wide and 50mm deep and only requires one person to operate. This quality turf cutter easily makes short work of removing turf.

TRUCK LOADER

The WBLV50K - Truck Loader is suitable for leaf, litter, and debris removal and is specially designed for such use on hard surfaces. Powered by a Kawasaki FJ180 engine, this truck loader drives a powerful suction turbine.
